Crane

HOLIDAY PHOTO CARDS

Crane

CRANE PHOTO CARDS

ORDER INFORMATION

Crane is pleased to offer photo cards in two different variations, either with photo mount tape for attaching your photo print or with a photo that is digitally printed along with your personalization. Cards with photo mount tape (item number suffix T, for example CP92468T) are offered with several print method options, including digital. Cards with digitally printed photos (item number suffix D, for example CP92468D) include digital personalization in their price. Personalization in other print methods will incur an additional fee. Please see Ordering Information pages for details.

CARD AND PHOTO LAYOUTS

Cards with Digitally Printed Photos

Indicate the format of the card as horizontal or vertical, as well as top-fold or side-fold, if applicable. Indicate copy position as center, flush left, flush right, etc. If you do not specify a copy position, we will print as shown on the sample. When submitting multiple photos, indicate the position for each on your order form. Also, please include the position in your file names. Please upload your original photograph and do not crop or scale. We can do that for you, just provide specifications. When submitting a Photographic Print for reproduction, your Crane dealer will forward your photo print to be scanned. A glossy print, no smaller than the size you are ordering, will provide the best reproduction. The original print will be returned with your order. Type or photos that print on the top inside panel will be sized to print within any foil stamping or embossing on the reverse side (front panel).

Cards with Photo Mount Tape

All items with Photo Mount Tape are designed to accommodate a 4 x 6 photo print. Indicate the format of the card as horizontal or vertical, as well as top-fold or side-fold, if applicable. Repositionable tape for mounting photo prints is affixed to all photo mount items. The repositionable tape allows for adjusting the placement of a photo print if needed. It also provides your recipients with the option to save the print for an album or frame once the holiday season has ended. Type that prints on the top inside panel will be sized to print within any foil stamping or embossing on the reverse side (front panel).

Important Reminder

When placing an order for photo prints or digitally printed photo cards, remember that you must own the right to reproduce the image you submit. If you would like to submit an image taken by a professional photographer, you must include written permission.

GREETINGS, DESIGNS AND INK COLORS

To personalize your order, select a greeting from pages A, B, C or D. Another option is to write your own greeting and specify any typestyle shown on pages E and F. Design selections are shown on page F. For information on multiple-pass printing, please refer to the Holiday Ordering Information pages located in the back of this album. There are no additional charges for multiple-color and multiple-pass printing when the digital print method is ordered.

DIGITAL PRINT COLOR SELECTION

Select No Ink as a print color to indicate type or a motif knocked out of a solid ink color to expose the paper stock.
